Elton Lobo

Software developer focused on building accessible web applications

eltonsw00@gmail.com | EltonLobo07 (Elton Lobo) · GitHub | Mumbai, India

Work Experience

CometChat, India | **Trainee Software Engineer** | *December 2022 - July 2023*

- Worked with the UI kit team to rebuild the company's React UI kit which helps developers quickly build custom chat and calling web applications
- Collaborated with several other developers to add the features to the company's dashboard
- Fixed a few minor dashboard related UI issues
- Reviewed code written by other developers as part of a software development workflow

Projects

Invoice Application - Demo

- A web application that allows users to store complete or incomplete invoices, delete a stored invoice, mark an invoice as paid, and filter invoices by status
- The stored data is protected using a custom authentication and authorization flow
- Built using *TypeScript*, *React*, *TailwindCSS*, *PostgreSQL* and *Express*

Audiophile E-commerce Website - Demo

- Website that displays the electronic gadgets of an imaginary company, using which a user can view items by category, add or delete products from the cart, edit product quantities in the cart, and checkout
- Built using *TypeScript*, *Next.js*, *TailwindCSS*
